BHATT MAHIMAN

FULL-STACK DEVELOPER | WEB & MOBILE

Ahmedabad, Gujarat, India | work.mahiman@gmail.com | +91 91048 80776
LinkedIn: /in/mahiman-bhatt | Portfolio: mahiman-portfolio.vercel.app

PROFESSIONAL SUMMARY

Full-Stack Developer with professional internship experience building responsive web applications using React.js, JavaScript, Node.js, Express.js, and MongoDB. Experienced in RESTful API development, API integration, reusable component-based interfaces, database-driven applications, Git/GitHub, and debugging. Currently learning Flutter and Dart through TOPS Technologies, focusing on mobile UI and cross-platform development. Strong willingness to learn new technologies and contribute to real-time projects.

TECHNICAL SKILLS

Languages	**JavaScript (ES6+), Dart, HTML5, CSS3, SQL**
Frontend	React.js, Next.js, Tailwind CSS, Responsive Web Design
Mobile	Flutter (Currently Learning), Dart, Responsive Mobile UI
Backend	Node.js, Express.js, RESTful APIs, API Integration
Database	MongoDB, Firebase
Development	Component-Based Architecture, CRUD Operations, UI/UX Optimization
Tools	Git, GitHub
AI Tools	GitHub Copilot, Cursor, ChatGPT, Claude, Bolt.new, Lovable, Replit, Firebase Studio

PROFESSIONAL EXPERIENCE

Full-Stack Web Development Intern | Unified Mentor Pvt. Ltd. — Gurugram, Haryana
September 2025 – March 2026

- Developed and maintained 3+ full-stack web applications using React.js, Node.js, Express.js, and MongoDB with REST API architecture.
- Built 15+ reusable React components and optimized frontend performance and UI responsiveness.
- Designed and implemented 10+ RESTful APIs for authentication, data management, and third-party API integrations.
- Collaborated with a team of 4 developers using Git and GitHub for version control, pull requests, and feature deployments.
- Debugged and resolved 20+ frontend and backend issues to improve application stability and reduce runtime errors.

FLUTTER TRAINING

Flutter & Dart Training | TOPS Technologies — Ahmedabad | Currently Learning

- Learning Flutter and Dart fundamentals for cross-platform mobile application development.
- Practicing widget-based UI development, responsive layouts, navigation, reusable components, and mobile API integration.

PROJECTS

Student Management App | *Flutter • Dart • GetX • GetStorage*| GitHub

- Built a Flutter student management app with login authentication, CRUD operations, search, profile/settings, light/dark themes, local notifications, biometric/device authentication, and offline storage using GetStorage.

Shoe Shop | *React.js • JavaScript • Tailwind CSS • Responsive Design*| GitHub

- Integrated asynchronous API requests and dynamic data handling for real-time weather updates.
- Implemented responsive React components for desktop, tablet, and mobile devices.
- Displayed 5+ weather parameters including temperature, humidity, wind speed, pressure, and weather conditions.
- Developed a real-time weather application using React.js and the OpenWeather API for searching weather information across 1000+ cities.

Weather App | *React.js • JavaScript • OpenWeather API • REST API*| GitHub

- Built cart management, order summaries, and a structured checkout workflow.
- Integrated product search and filtering across multiple categories to improve product discovery.
- Implemented modular frontend architecture with 10+ reusable components for product browsing and user interactions.
- Developed a responsive e-commerce platform featuring 20+ product listings, interactive UI components, and scalable page layouts.

SuperMall | *React.js • JavaScript • Tailwind CSS • E-Commerce*| GitHub

- Integrated financial datasets to improve portfolio insights and data accessibility.
- Implemented portfolio tracking features supporting multiple investment categories and dynamic data updates.
- Designed reusable UI components and 5+ interactive data visualization charts for analyzing investment performance.
- Built an interactive investment dashboard displaying 10+ financial metrics in a structured and user-friendly interface.

InvestConnect | *React.js • JavaScript • Data Visualization • API Integration*| GitHub

- Focused on responsive mobile layouts, navigation, local data handling, and maintainable component-based code.
- Added light/dark themes, local notifications, biometric/device authentication, and offline storage using GetStorage.
- Implemented CRUD operations, student search, profile/settings screens, and reusable Flutter widgets.
- Built a Flutter student management application with authentication and a structured mobile UI.

Student Management App | *Flutter • Dart • GetX • GetStorage*| GitHub

EDUCATION

Bachelor of Computer Applications (BCA) | Lokmanya College of Computer Application — Ahmedabad
2025 | CGPA: 6.32
